GLP LABORATÓRIOS

CONFIDENCE IN EVERY RESULT

Radiometric analysis for food and beverages

FOOD AND EXPORTS

Radiometric reports for food exports

Radioactivity analysis according to the requirements of each importing country, with tests within the ISO/IEC 17025 accredited scope.

Accredited scope | Export report

An accredited report, the way the importer requires it.

Industries such as M. Dias Branco and Seara already rely on GLP.

Areas of work

- **Exports:** radionuclides required by the FDA, the European Union and Portaria 146 (MAPA).
- **Certification and audit:** traceable reports for FSSC 22000 and FDA CPG 555.880.
- **Matrices:** meat, dairy, grains and cereals, coffee, fruits and vegetables, non-alcoholic beverages and mineral water.

Cs-134/Cs-137 | I-131 | Sr-90 | Ru-103/Ru-106 | Pu-239 | Am-241 | H-3

Technical quality

- **ABNT NBR ISO/IEC 17025 accreditation · CRL 1266**, according to the accredited scope.
- Facility licensed by ANSN.
- IAEA's ALMERA Network, and IAEA, IRD and ERA proficiency testing.
- Tracking through the Online Results portal.

From sample to report

1. Scope definition

Destination market, matrix and required radionuclides.

2. Sample shipment

Guidance on quantity and packaging; accredited sampling for non-alcoholic beverages and mineral water.

3. Export report

Traceable, auditable certificate, delivered in time for shipment.

Exporting?
Talk to GLP.

Tell us the product, the destination market and the shipment date.
