GLP LABORATÓRIOS

CONFIDENCE IN EVERY RESULT

Radiometric expertise for your laboratory

SPECIALIZED TECHNICAL PARTNERSHIP

Solutions for partner laboratories

Expand your portfolio in environmental and food testing with reliable data, compliance and traceability.

Complementary scope | Auditable reports

Have a market-reference laboratory as your partner.

SGS, Bureau Veritas and Eurofins already rely on GLP. Your laboratory can too.

Areas of work

- **Radiometric analysis applied to food safety.**
- Environmental testing: gross alpha and beta, tritium, radon and the Uranium and Thorium series.
- Matrices: water, soils, sediments, food and vegetation.
- Radiometry and metals by ICP in the same accredited report.

Cs-134/Cs-137 | I-131 | Sr-90 | Rn-222 | H-3

Technical quality

- **ABNT NBR ISO/IEC 17025 accreditation · CRL 1266**, according to the accredited scope.
- Facility licensed by ANSN.
- IAEA's ALMERA Network, for environmental radioactivity.
- IAEA, IRD and ERA proficiency testing.
- Clear, consistent, traceable and auditable reports.

More reach for your laboratory

Expanded portfolio

Backed by a trusted technical partner.

Complementary role

Specialized analyses, without competing with the partner.

Flexible partnership

On demand, in continuous flows or per project.
