GLP LABORATÓRIOS

CONFIDENCE IN EVERY RESULT

Mining, industry and NORM materials

MINING, INDUSTRY AND NORM

Radiometric solutions for mining and industry

Testing and advisory in radiation protection, licensing and environmental radiological monitoring.

Own laboratory | Fieldwork + technical report

A reference laboratory alongside your operation.

GLP Laboratórios brings together fieldwork, testing and technical reports, with a focus on compliance, traceability and safety.

How GLP supports your operation

Specialized advisory

Radiation protection, licensing, PMRA and compliance with regulatory body requirements.

Special analyses

Ores, NORM, tailings, effluents, special waste and radioactive mass balance.

Environmental testing

Environmental matrices for radiological monitoring programs and fieldwork routines.

Exports and supply chain

ANSN clearance, material characterization and technical documentation to support decisions.

Credentials

ABNT NBR ISO/IEC 17025 · CRL 1266 · ALMERA Network

Highly skilled technical specialists and radiation protection supervisors.

Facility licensed by ANSN
National Nuclear Safety Authority

Regulatory references

Radiation protection, mining and industrial facilities, pre-operational, operational and decommissioning PMRA, tailings and phosphogypsum.

ANSN 3.01/2024 | ANSN 4.01/16 | ANSN 8.01

Portaria DRS No. 09/13 · Applied according to demand.

Experience at Santa Quitéria, Rare Earths, Catalão Phosphogypsum, Tantalum/Niobium, Magnetite and Petrobras.
