02 · WHERE YOU'VE LANDED

A reference laboratory

GLP Laboratórios specializes in radiometric analysis — we measure radioactivity in water, soil, food, ores, and industrial waste.

Our reports allow companies to export, comply with regulations, and protect people and the environment. That's what you're now becoming part of.

Since 2015
In Piracicaba/SP

ISO/IEC 17025
Cgcre Accreditation · CRL 1266

Largest scope
Radiometric testing in Brazil

A technical environment is also built on healthy relationships

At GLP, culture is how we work, learn, and collaborate every day.

A healthy work environment

Integration between areas and teams

Valuing our people

> Here, **technical results and collaboration** walk the same hallway. The next slide shows how this shows up in everyday life.

Behaviors that protect the quality of our day-to-day

Open communication

Freedom to communicate ideas, questions, and areas for improvement with respect.

Agility in resolving conflicts

Resolve friction with maturity, clarity, and a focus on solutions.

Recognition

Recognize contribution, career journey, and continuous learning.

Healthy environment

Build professional relationships that foster safety and collaboration.

Key points for day-to-day life

Time clock

Accurate recording of clock-in, clock-out, and breaks.

Cafeteria

Mindful use, organization, and respect for shared spaces.

Working hours

Attention to agreed schedules and guidance from leadership.

Cell phone

Responsible use, without compromising safety and operational focus.

Time bank

Tracked according to internal policy and prior agreement.

Working hours and breaks

1 Shift 1
